

Schieferstine Scrapbook Index

This is an every-name index. **Boldface** indicates the person is the subject of an article; the other entries indicate people are mentioned in an article. Names are indexed as they appear; this means the index includes a few intentional misspellings. If "Mrs" was attached to a traditional female name, e.g., Mary, it was removed so the woman's name would sort alphabetically. Check for married women under their maiden names, married names, and husband's names.

If you find an index entry of interest, please contact the Society for information about the related article.
